

Wellspring 100

High Efficiency Atmospheric Water Generator

Technical Specifications | Model: #4048200

Performance

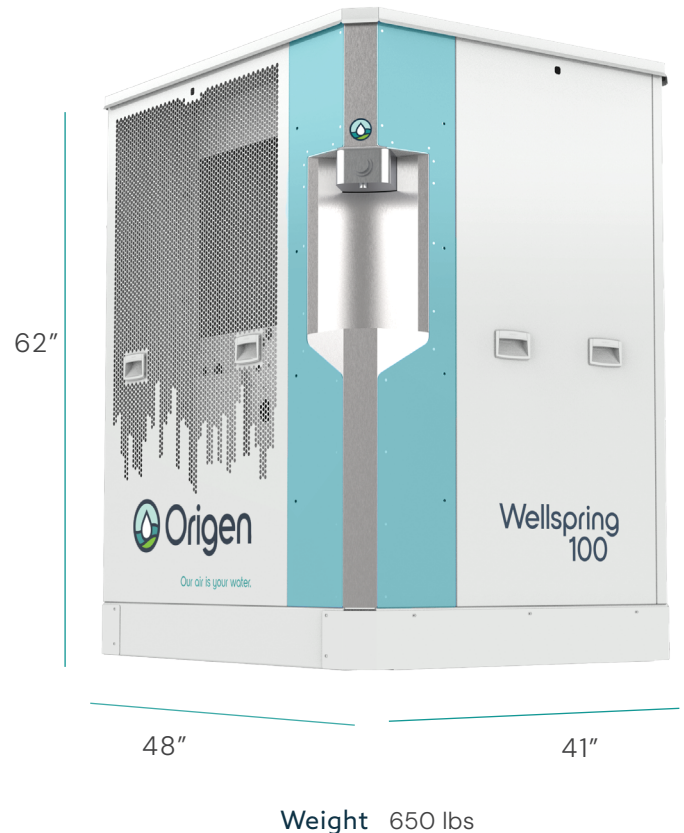

°F / %RH	80/60	75/50
Water Generation (Gal/Day)	103	65
Efficiency (Gal/kWh)	.92	.65
Energy Factor (L/kWh)	3.5	2.5

Electrical

Supply Voltage	230V
Current Draw	22.5A
Power	4650W
Power Cord	None, Hardwire Only
MCA	38.8A
MOP	60A
Recommended Breaker Size	40A
BTU	68,026

Air & Water

CFM	1850
Air Filter Rating	MERV-13
Dimensions	18" x 20" x 2" (Qty 2)
Water PH	7.5-8.5
Filtration Level	4-Stage with UV-C Sterilization
Mineralization	Pentair 7cm
TDS	60-70 ppm
Internal Tank Capacity	50 Gallons

Features

- ✓ **Unmatched Efficiency:** Utilizes patented M-CoRR™ Technology, making it the most energy efficient water generator on the market.
- ✓ **Pure Water Promise:** 4-stage filtration plus UV-C sterilization for clean, safe drinking water.
- ✓ **Widest Operating Range:** Performs in more climates than other refrigerant-based water harvesters.
- ✓ **Highest Safety Standards:** Built for safety and pure performance – certified to UL399 and UL60335-2-40 for advanced protection, and NSF 61, delivering clean drinking water you can trust.
- ✓ **Auto-Restart:** Resets to previous settings after loss of power.
